

K-love is my son's favorite music station he literally play's it night and day. This highly pleases me. It is the only radio station I feel save letting him listen.

K-love gives us and the public something positive to listen to.

I never have to worry about bad words or messages of rebellion being sent to my son or my other children over the radio waves from K-love.

It really disturbs me to think that K-love could possibility be going off air.

Our city of Tucson and AZ. really needs an alternative to listen to and there would be no alternative if K-love was taken off the air.

K-love serves the community like no other station. It can reach teens and any age with a positive message of love , hope for life and salvation.

With so many bad messages out there for youth and adults to listen to

K-love is needed to over come and dilute the message of suicide is the answer or doing some criminal act (drugs, rape, murder) to name a few.

K-love provides this alternative. K-love is the only radio station that promotes my family values. Love, respect, for community, family, and God.

Please do not take klove off the air.

Thanks
